

Greyson Zittle

UX Engineer

ABOUT ME

I am a UX/UI designer with 8+ years of experience bridging the gap between design and development. I'm proficient in creating rich user experiences from UX research through developer ready deliverables. I'm seeking a long-term position where I can leverage my design thinking and technical expertise to help build meaningful products.

EXPERIENCE

Design and Development Engineer

Vanguard Digital Media Group • Contract

Jul 2025 – January 2026

- Designed custom employee ecommerce platform from concept to final mockups, creating a fully featured employee storefront and admin management dashboard
- Built an immutable balance ledger tracking all transactions, credit issuances, and deductions with complete financial audit trail
- Created comprehensive admin tools for managing employees, orders, product collections, and credit issuances

Lead Design and Development Engineer

Powersport Share, LLC • Contract

May 2023 – May 2025

- Created high-fidelity mockups and complete UX flows in Figma for peer-to-peer marketplace platform, working closely with founders and investors to ensure vision and goal alignment
- Designed and built in-app messaging system, income dashboards, and end-to-end listing management with availability calendars and pricing controls
- Built a responsive front-end using Nuxt 3 and Tailwind CSS, integrated Stripe Connect for marketplace payments, and implemented secure authentication with 2FA and passkey support
- Contributed to pre-launch efforts capturing 500+ hosts ready to list vehicles across the Midwest region

Lead Product Designer

FundEasy • Full-time

Feb 2019 – Apr 2023

- Led end-to-end UX research, wireframing, prototyping, and high-fidelity design for fundraising platforms serving tens of thousands of users who raised tens of millions for nonprofits
- Spearheaded company-wide rebrand from Ministry Sync to FundEasy, serving as key decision-maker and final approver for all brand identity and design communications
- Rebuilt entire component library in Figma (migrated from Sketch) with full component parity to codebase, establishing scalable design systems and improved handoff workflows
- Redesigned complete product suite including peer-to-peer, crowdfunding, and attendance across web and mobile applications
